We strive to make the PFS Summit a fragrance-free space. In an effort to improve indoor air quality, please refrain from using perfume, cologne, essential oils, scented lotions, and other fragrant personal care products. If there is enough time before Summit, consider using non-scented laundry detergent and skip the fabric softener, as this is the biggest improvement you can make for your colleagues with chemical injuries and sensitivities. Co-creating fragrance-free spaces is always a work in progress. Thank you for doing your part to help us all fully participate in the Summit.
